

Empower Vocabulary

Walkthroughs — Admin, Teachers, Students

Three audiences in one document. Part A is for you (the admin). Parts B and C are copy-paste-ready emails to teachers and students.

Part A — Admin / Owner Walkthrough

A.1 What changed

Area	How it works now
Email domain	Enforced in Firestore rules + client. @fsm.edu.tr or @stu.fsm.edu.tr only.
Email verification	Required for every real user. Demo accounts pre-verified by admin.
Demo accounts	Three pre-created shared accounts. Credentials in DEMO-CREDENTIALS.pdf. No public button.
Teacher promotion	Admin-only, via ■ button in the teacher dashboard Students tab.
@stu.fsm.edu.tr promotion	Permanently blocked. Cannot be promoted via UI or API.
Classroom answer privacy	Only writer or teacher can read.
Password minimum	8 chars.

A.2 Deployment

From the project root:

```
firebase deploy --only firestore:rules,hosting
```

To create the demo accounts (one-time)

- Firebase Console → Project settings → Service accounts → Generate new private key.
- Save as E:\vocab-trainer\y\tools\.serviceAccount.json.
- Run `cd E:\vocab-trainer\y && npm install firebase-admin`.
- Run `node tools/create-demo-accounts.js`.
- Three demo accounts are now live. See DEMO-CREDENTIALS.pdf for what to share.

A.3 Promoting a teacher

- Have the teacher register with their @fsm.edu.tr email and verify it.
- Have them sign in once. They land on the student dashboard (correct — every new account starts as student).
- Open the teacher dashboard as admin. Go to the Students tab.
- Find their row. Click the ■ button. Confirm.
- Tell them to log out and log back in. They now land on the teacher dashboard.

@stu.fsm.edu.tr accounts cannot be promoted

The ■ button does not appear for @stu.fsm.edu.tr rows, and the Firestore rules reject any role-change attempt for those addresses. This is intentional and permanent.

A.4 Demoting a teacher

- Admin tab → click the teacher's row to expand it → ■ Demote to Student.

A.5 Rotating demo passwords

- Edit DEMO_ACCOUNTS in `y/tools/create-demo-accounts.js`.
- Add `rotate: true` to entries whose password changed.
- Run the script. Then update DEMO_ACCOUNTS in `build_pdfs.py` and re-run `python build_pdfs.py`.

Part B — For Teachers

Copy this into an email for your teaching staff.

How to use Empower Vocabulary

1. Signing in

Go to the app. Use your @fsm.edu.tr email. If this is your first time logging in after the changes, you may be sent to the student dashboard. Tell Alireza once and your account will be promoted; log out and back in to land on the teacher dashboard.

2. New students registering

Students register with their @stu.fsm.edu.tr email, click the verification link in their inbox, then sign in. If a student says "I can't log in", 99% of the time they didn't click the verification link.

3. Demo accounts

Three shared demo accounts exist for visitors. The credentials live in DEMO-CREDENTIALS.pdf with Alireza. Demo users appear as "Demo Account 1/2/3" in classroom rosters and cannot submit anything that is graded or saved. They're for tours, not real classes.

4. Things you cannot do anymore

- You cannot read other students' classroom answers unless you're a teacher (you are, but the rule stops cheating between students).

5. If something feels wrong

Email Alireza: akabiriaslifar@fsm.edu.tr. Don't try to fix anything yourself in the Firebase Console.

Part C — For Students

Copy this into an email or pin it where students can read it.

How to use Empower Vocabulary

Step 1: Register

Click the **Register** tab. Use your `@stu.fsm.edu.tr` email. Fill in your name, class, module, and academic year. Click **Create Account**.

Step 2: Verify your email

You will receive an email from `noreply@empower-vocabulary-practice.firebaseio.com`. Click the link in it. Check your spam folder if you don't see it after 1 minute.

Step 3: Sign in

Click **Sign In** on the app. Enter your email and password. You will reach your dashboard.

Common problems

Problem	Fix
"Please verify your email" after clicking Click link	Click the link a second time. Go back to the app and sign in.
"I never got the verification email."	Type your email and password on the login page, then click Resend email . Wait 1 minute.
"It says 'Only FSM email addresses can be registered'"	Use <code>face="Courier">@fsm.edu.tr</code> or <code>face="Courier">@stu.fsm.edu.tr</code>
